

## ACCREDITED PUBLIC HEALTH DOCTORAL DEGREES

The 2016 Criteria, like previous criteria sets, require all SPH to offer doctoral degrees (DrPH and/or PhD). PHP may choose to offer doctoral degrees. SPH and PHP must define a concentration for each doctoral degree. As of December 2019, 86 accredited units offered doctoral degrees (all 67 SPH, 19 PHP). Thirty-seven doctoral offerings cross disciplines and are counted in more than one concentration category below, e.g., nutritional epidemiology. See DrPH Trends for additional detail on changes in the DrPH degree, and see the [Background](#) document for a key to abbreviations.

DOCTORAL CONCENTRATIONS OFFERED (UNDUPLICATED COUNT)		
DrPH 81	PhD 334	All doctoral 415

CONCENTRATION	DEGREE	TOTAL OFFERED
BIOS	DrPH	6
